## Performance

### Battery

361mAh

247mAh

\*Typical value tested under Samsung laboratory condition. Typical value is the estimated average value considering the deviation in battery capacity among the battery

# Galaxy Watch4

samples tested under IEC 61960 standard.

(minimum) capacity is 361mAh for Galaxy

Watch4 44mm, 247mAh for Galaxy Watch4

40mm. Actual battery life may vary depending

on network environment, usage patterns, and other factors.

\*Battery time is based on our own laboratory measurements, and may vary depending on factors such as device settings, usage patterns and operating conditions.
